**Natasha Granata**

AAF Brussels 2025

## *About the artist*

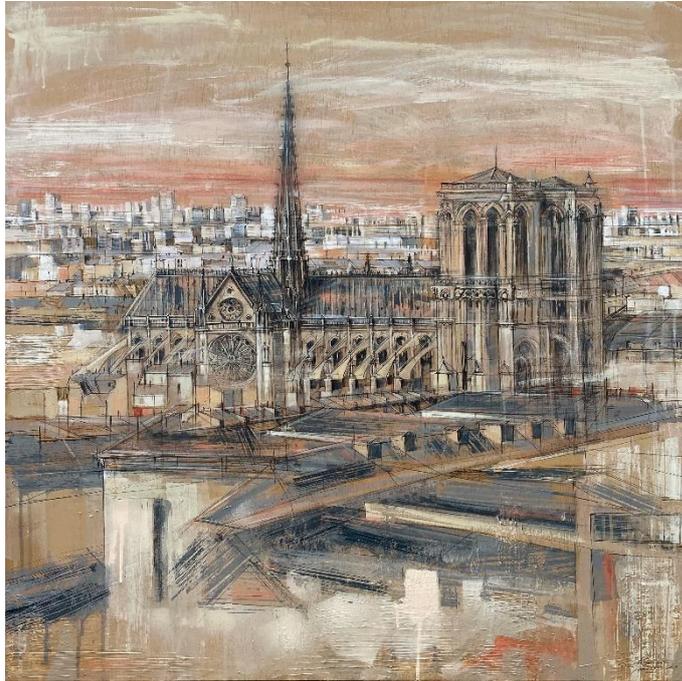

“My art is very much influenced by my nomadic lifestyle that moves me from one country to another. My work reflects my impressions, feelings, observations and emotional connection to the place where I am at that particular moment in my life.”

Natasha Granata is a full time nomadic artist, who has lived and worked in different countries.

As a multidisciplinary artist she works with various techniques, from traditional to experimental, combining common raw materials from everyday life such as cardboard and pizza boxes. She also works with mixed media, using ink, acrylic, charcoal, graffiti.

Her motivation is to seek new effects, a new look at the expression of ideas, harmonious combinations of colors, shapes, rhythms that cannot be repeated. Always looking ahead and following her own path.
